Dear Mr Biechonski

Please accept our sincere thanks for the help and support you have given to our organisation over the last couple of years.

The skilled labour (both pipefitters and coded welders) and assistance that your company has provided to our organisation involving pipework fabrication, installation and testing both workshop and site based (in Poland and the United Kingdom) has been excellent.

We look forward to continuing our working relationship with you for many years to come and wish you all the very best for 2009.

For and on behalf of
Haycock & Hague (Pipework) Systems Ltd
